Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance:

Although the prior art of record recognizes the use of a heated fluid for treating marine growth on a surface, none of the references teach or suggest a method or apparatus including means to retain a confined volume of heated fluid adjacent the surface regardless of the orientation of the surface or conforming the confined volume to the shape of the surface as the confined volume is moved over the surface. Clum et al. (US 5,389,266) teaches a method and apparatus for treating surfaces with a confined volume of heated fluid but fails to disclose any means for retaining the confined fluid adjacent the surface regardless of the orientation of the surface. For example, Clum et al. does not teach a means of retaining the confined volume adjacent a vertical surface. Moreover, the confined volume of Clum et al. is a fixed shape and does not conform to the surface, such as a curved surface.
2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
